**Lighting and Mirror Design Studio with integrated production
for residential and hospitality industry**

Meet the Designer

Hi. My name is Anca, I'm a product designer and I'm the creator behind the scenes.

My professional collaborations span several prestigious brands, including Roche Bobois Romania for the Anniversary of 50 years of Mahjong, Intro Design, Intel Romania, Ubikubi, Save the Children Romania, Hansen, and Avon Cosmetics.

My work has been exhibited at Milano Design Week, Designers New Fair in London, Stockholm, Kortrijk, Graz, Brussels, Bucharest, Cluj and Vienna.

The recognizable features of my creations are aesthetic freedom, lively spirit and storytelling.

I believe that some of the most important needs people have today are emotional stability and comfort, and this is what I aim to provide through my products.

In a world filled with eye-catching or luxurious yet often emotionally cold options, the hospitality industry is starting to place greater emphasis on addressing emotional needs—now more than ever.

Why work with us?

Original design

Each product is designed in-house, not re-sold. Alongside our proposed collections, we love bespoke projects.

In-house production

That means complete control over materials, finishes, execution times.

Consistent quality

After proofing the prototype with the client, we manually check each piece before delivery, to ensure best quality.

B2B flexibility

All our products are customizable, by size and colour. You just need to write us an email with your enquiries and we'll design and produce custom items for you.

For hospitality projects, we adapt and personalise our products, to perfectly fit the projects requirements.

Scalable production capacity

We can ensure batches of 20–50–100 pcs. for projects or stores.

Smooth collaboration

We are very adaptable, so working with us means attention and focus on clients needs. We take into consideration time, budget and design requirements and offer optimal solutions to architects, buyers and developers.

International presence

Lotus Collection was very well received by the Viennese public during Blickfang Fair in 2025.

Lotus Collection

The Concept

Lotus, the symbol of purity and spiritual awakening, reminds us that we have the strength to rise above the challenges of today's world.

It's delicate, yet structured, fragile, yet powerful and mesmerizing.

Materials and production

Lotus flowers - 3 mm satinated plexiglas

The flowers are lasercut and then thermoformed manually, in our workshop in Brasov

Other components

Table lamp:
metal base

Floor lamp:
metal base and leg

E27 wall/ ceiling socket. A60 7W 650Lm E27 2700K Dimmable light bulb included. Choose between silver and golden
3 layer flower

Lotus Mirror & Light

dimensions: 20x48x48 cm
E27 wall/ ceiling rose. A60 7W 650Lm E27 2700K Dimmable light bulb included. Choose between silver and golden
2 layer flower

Lotus Collection Customisation

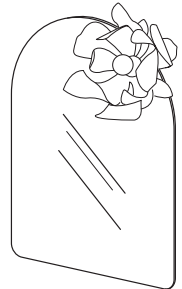

Size

Typically, Lotus flowers come in 2 sizes:
M size - 17-18 cm in diameter
L size - 26-27 cm in diameter

However, if your project requires custom dimensions, we can produce them up to 38 cm in diameter.

Shape

Lotus Mirror & Light can easily be personalised by changing the mirror shape. This means that we can use the same design principle to create a vanity mirror with light.

Layers

We use 2 to 3 flower layers to create the designs, depending on the model. If wished, we can go up to 4 layers.

Colors

Typically, we use white satinice plexiglas for the Lotus flowers.

**2026 comes with 2 new finishings:
All colors can be combined**

pale pink

splashed/ dotted

Thank you!
